1. Introduction

This report summarizes the first open house held for the Trunk Highway 36 and Lake Elmo Avenue/CSAH 17 intersection study. The open house was held in person and online in November 2021.

1.1 Project Overview

The TH 36 and Lake Elmo/CSAH 17 intersection has experienced safety and capacity issues. The intersection has been studied in the past by the County, MnDOT, and City of Lake Elmo to identify potential improvements. With the award of federal funds and need to complete the environmental process, a fresh and comprehensive look at the intersection is being conducted. As a result, Washington County has identified this project to investigate options for access and intersection types. Through a combination of technical analysis, education, outreach, and collaboration, the alternatives developed will be vetted with the stakeholders. The project will culminate in the selection of a preferred alternative to achieve municipal approval and a preliminary design that sets the stage for final design and construction projects to bring the intersection safely and efficiently into the future.

1.2 Open House Purpose

The purpose of the first open house was to introduce the project, including goals and schedule, and solicit input on issues, needs, and concerns to inform the study and provide input to inform the Draft Purpose and Need. In addition, the project team shared general existing conditions information.

1.3 Advertisement

Advertisement for the open house included a postcard to residents and businesses in the area, a posting in the City of Lake Elmo newsletter, an email notification to subscribers, and social media advertisements. Images of these advertisement efforts are shown in **Appendix A**.

The first round of social media advertisement ran for one week leading up to the in-person event and launch of the online open house. The Facebook ad reached 4,374 people and was shared by the City of Lake Elmo. The Nextdoor post was seen 4,822 times. The Twitter post had 250 impressions.

The second round of social media advertisement launched the day of the in-person event and start of the online open house. The Facebook ad reached 1,852 people and was shared by Stillwater Township. The Nextdoor post was seen 5,114 times. The Twitter post had 227 impressions.

2. Open House Structure

This open house had both an in-person and an online component with the goal of reaching many members of the public and providing options that would allow people to engage in a way that worked for them.

2.1 In-Person Component

On November 9th, 2021, the in-person open house was held from 4:00 p.m. to 6:00 p.m. at River Valley Christian Church, which is located at the study intersection. Washington County staff, partner agency staff (including City of Lake Elmo, City of Grant, Washington County, and MnDOT), and consultant staff attended to facilitate small discussions about current issues in the project area and goals and priorities for the study.

Materials brought by the project team included a project handout, informational boards, a time-lapse video of vehicles using the intersection displayed on large screens, and large maps where participants could view the area and place comments on sticky notes near areas where they had questions or concerns. In addition, a questionnaire was utilized to receive additional comments and demographic information.

2.2 Online Component

Beginning on November 9th, 2021, the online open house was launched and was live on the Washington County website through November 28th, 2021 (approximately 3 weeks). The online content included all the information that was provided on the open house flyer and informational boards. In addition, a video was created to include an introduction and explanation of project goals and schedule, intersection area and key needs, and how to comment and get involved.

There were multiple ways for the public to get involved during the online open house. They could respond to the questionnaire that was available at the in-person open house or directly to staff at the event, comment on an interactive map, submit a Washington County comment form via the project web site, and directly contact the project manager, Kevin Peterson, by phone or email.

The online content has remained viewable following November 28th, 2021, with the comment feature suspended. Members of the public may still contact members of the project team by email or phone, which is listed on the website.

3. Public Comments

The sections below provide an overview of the public comments. All public comments (with private information redacted) are available in **Appendix B**.

3.1 Comment Options

There were multiple ways that the public could provide comments: a questionnaire, an interactive map, a comment form, and direct contact with the project team.

3.1.1 Questionnaire

In the questionnaire that was available in person and online, participants were asked about how they use the roadways in the area, what concerns they have, and what project components or suggestions they would like to see evaluated. There was also an optional section to provide demographic information which is discussed the Title VI section of this summary.

3.1.2 Maps

Participants had the option to provide location-specific comments on an interactive map online or with sticky notes on large maps at the in person open house.

3.1.3 Online Comment Form

A general online comment form that is standard for Washington County projects was also available on the project web site.

3.1.4 Direct Contact with the Project Team

At the in-person open house, participants were encouraged to talk to project team members and staff from partner agencies. Participants could ask questions and discuss issues directly with the team and specific questions could be directed to subject experts.

Online, participants were encouraged to sign up for email updates and were provided with email and phone contact information for the Washington County project manager.

3.2 Summary of Comments Received

Input was received from over 120 people, primarily via the questionnaire. 117 people responded to the questionnaire, 13 comments were left on the map, and 7 people responded to the comment form.

Through the questionnaire, the project team was able to gain an understanding of how respondents use the roadways in the area. **Figure 1** shows a breakdown of how people responded to this question. 71% of respondents live near the study intersection. About half of the respondents use TH 36 to commute and about a third of the respondents use CSAH 17 to commute (some use both).

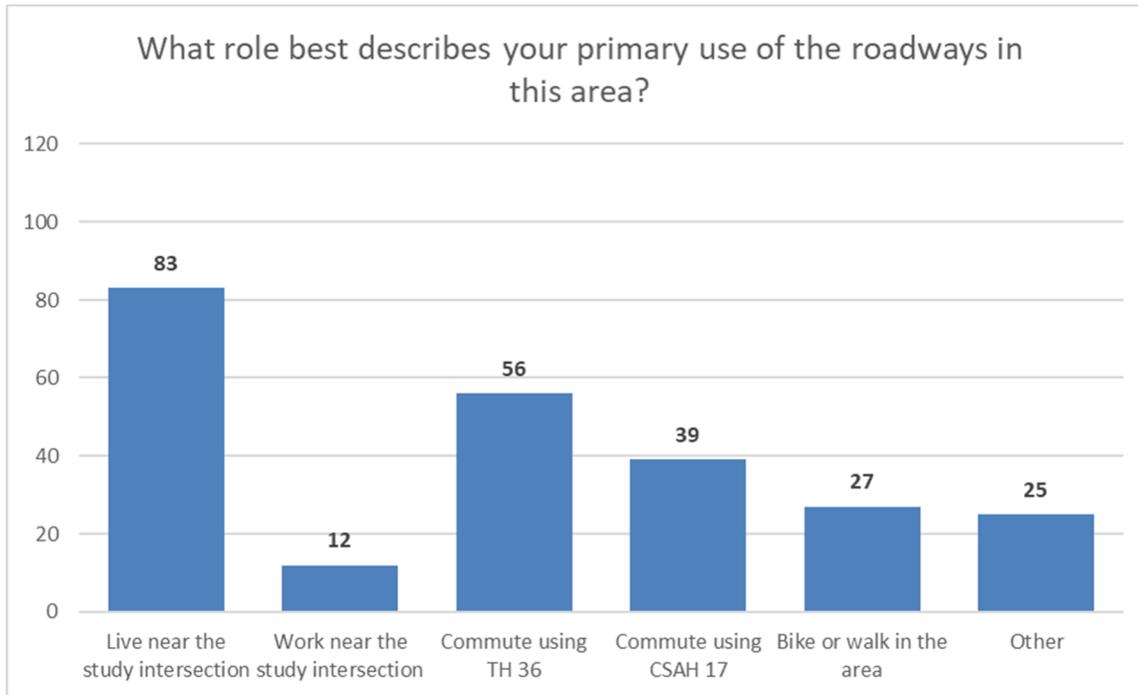

Figure 1. Roadway Usage

The primary purpose of the questionnaire was to receive specific input about what people are concerned about and what types of improvements they would like to see. The vast majority (85%) of respondents took advantage of this opportunity and the number of specific comments received are detailed in **Figure 2**.

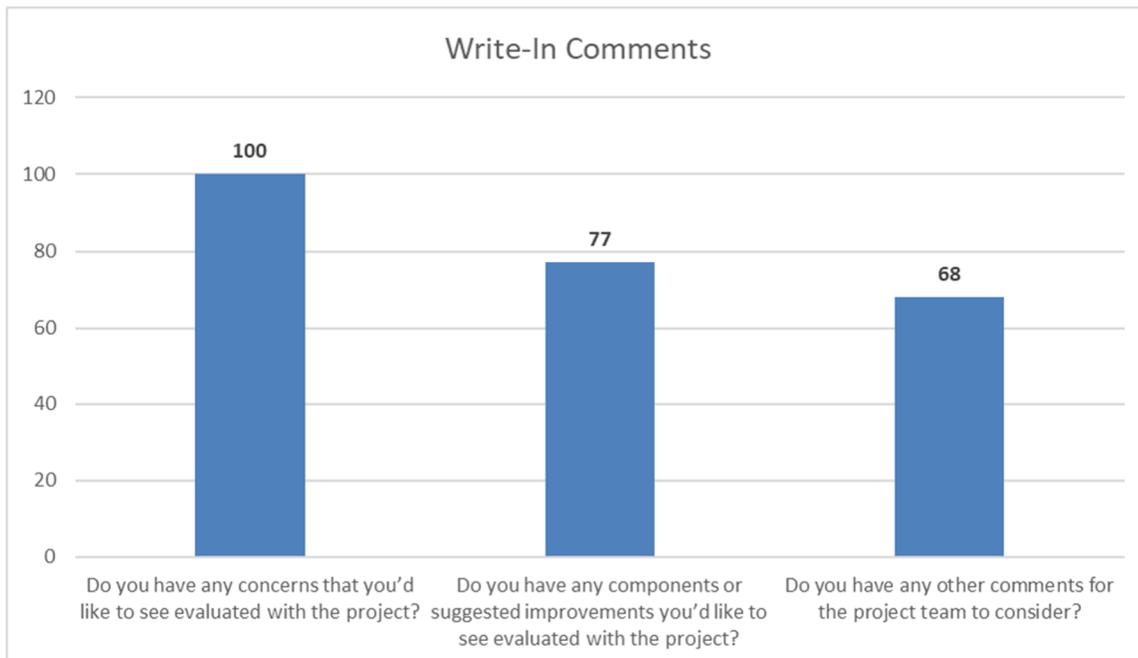

Figure 2. Write-In Comments

Across all commenting platforms, many participants had similar ideas. Key concerns include:

- Safety (vehicles and pedestrians/bicyclists at the intersection)
- Access (some desire to maintain access with intersection improvements, and some desire to close access to/from CSAH 17)
- Speed (especially excess speed on TH 36 and safety concern)
- Bicycle/pedestrian (safety and access today and desire for improvements)
- Impacts to property from intersection improvements (physical impacts and value impacts)
- Frontage road too close to intersection
- Passing in shoulder along CSAH 17
- Difficulty seeing traffic signals/drivers not paying attention along TH 36

Improvement suggestions or components that came up often include:

- Construct an overpass
- Reduce speeds
- Improve pedestrian/bicycle access
- Improve frontage road(s)
- Traffic control change (signal removal, and conversion to a two-way stop-controlled intersection)

4. Demographics and Title VI

To ensure compliance with Title VI of the 1964 Civil Rights Acts and ensure non-discrimination in the public engagement process optional questions related to demographics were included in the questionnaire. About 70-75% of respondents answered these optional questions depending on the question. These results were compared to the census data (ACS 2019 5-year) for each city to determine if a representative group of people participated.

In general, the respondent data closely matches city-wide data for the two cities. Potential exceptions are people in Lake Elmo who identify as Hispanic or Latino and low-income populations where survey responses were notably less than the percentages in the population. **Figure 3** through **Figure 7** compare survey responses to data for each city.

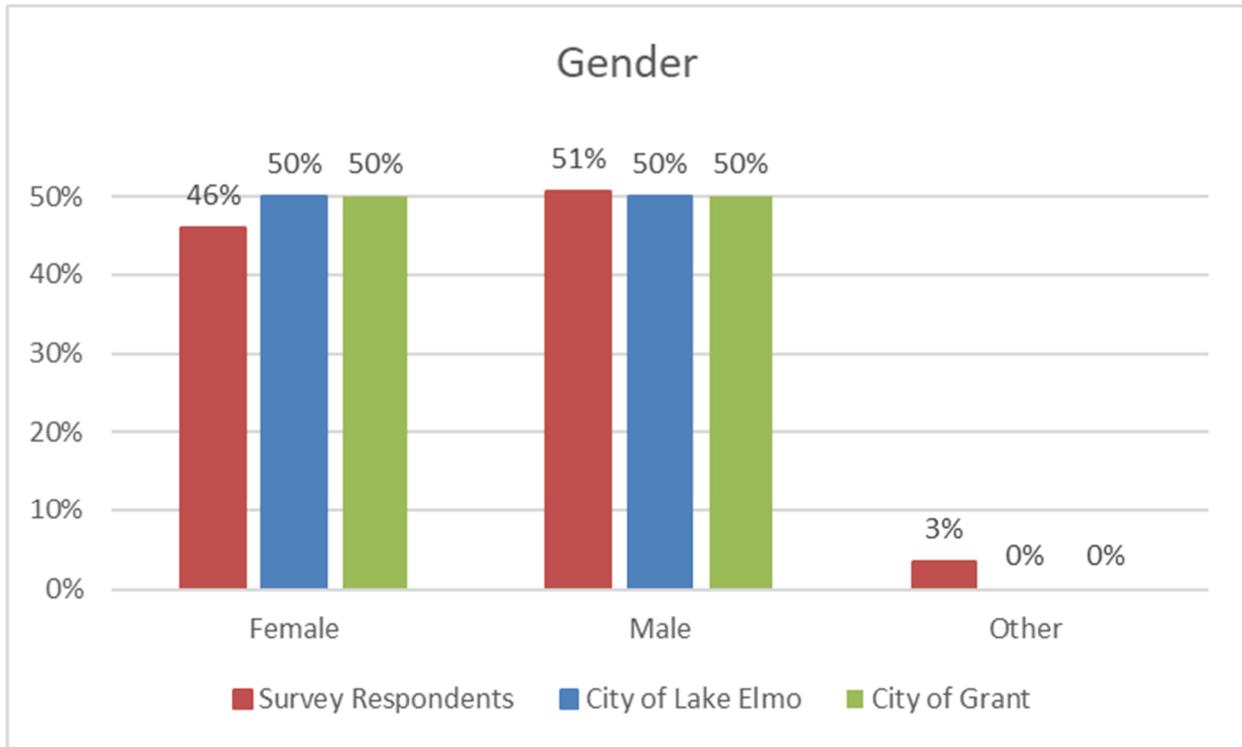

Figure 3. Gender (Survey Respondents and ACS 2019 5-year data for each City)

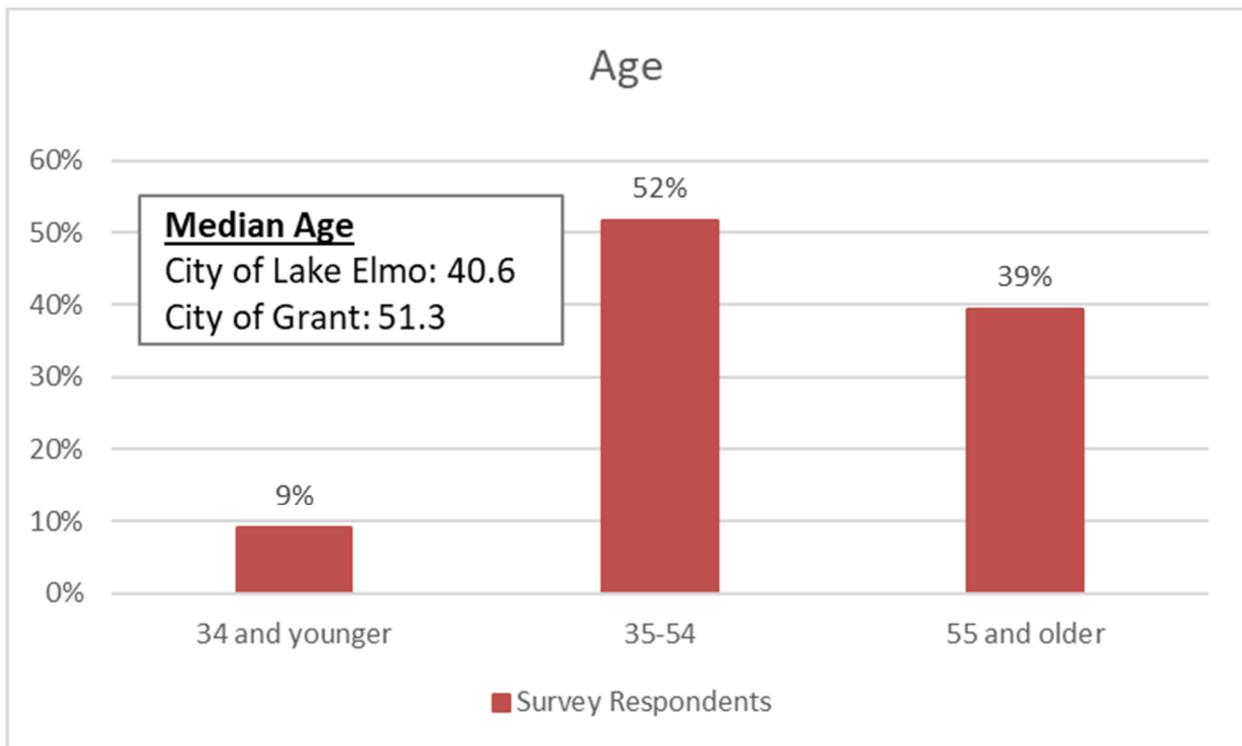

Figure 4. Age (Survey Respondents and ACS 2019 5-year data for each City)

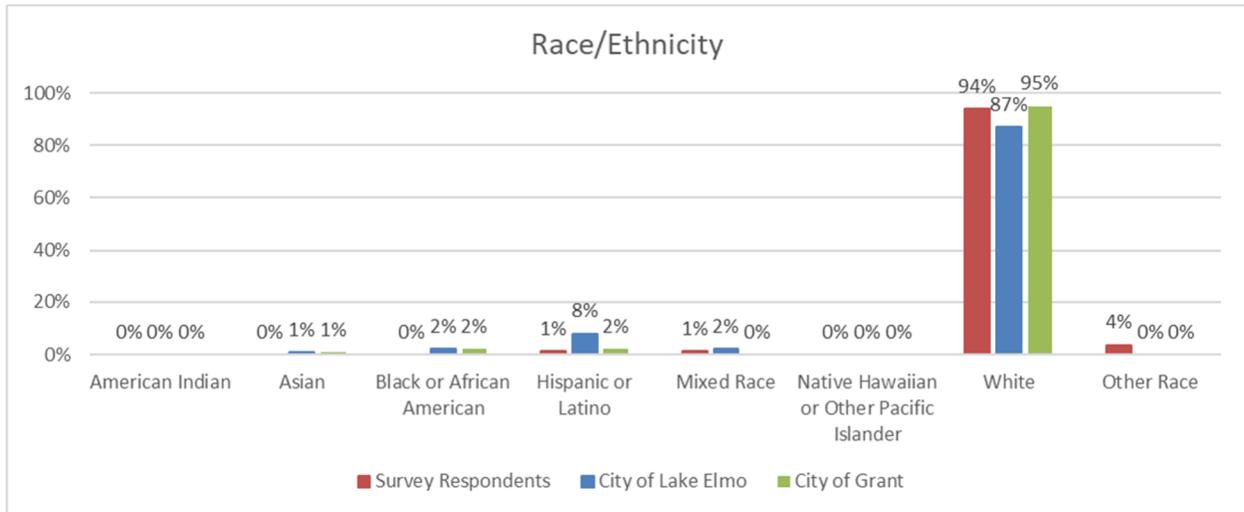

Figure 5. Race and Ethnicity (Survey Respondents and ACS 2019 5-year data for each City)

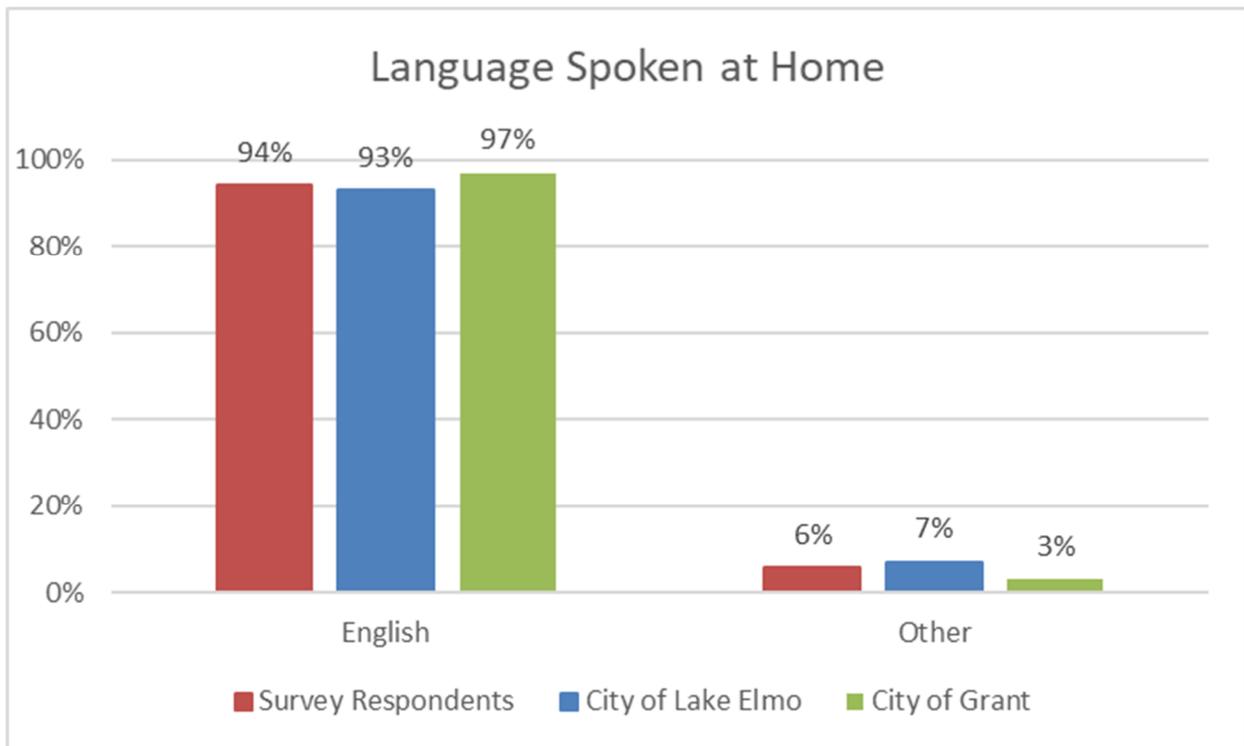

Figure 6. Language Spoken at Home (Survey Respondents and ACS 2019 5-year data for each City)

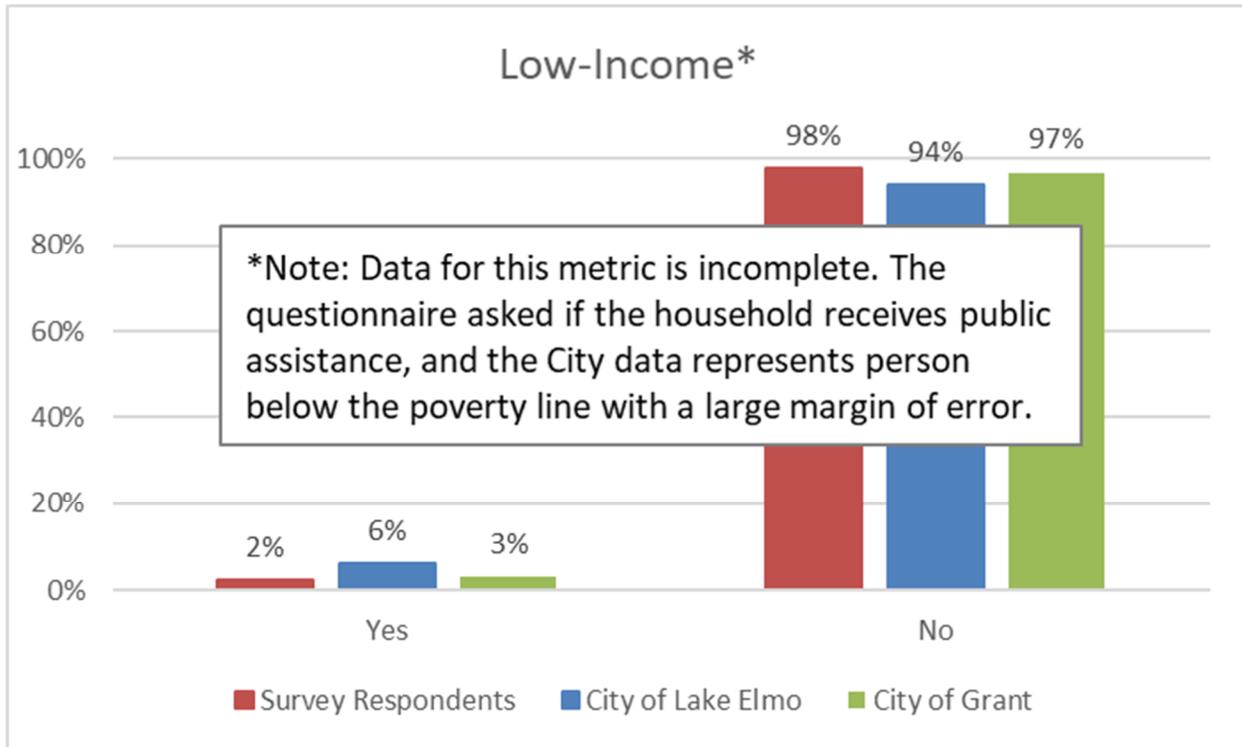

Figure 7. Low-Income (Survey Respondents and ACS 2019 5-year data for each City)

Open House Opportunity

Washington County, in partnership with MnDOT and the Cities of Grant and Lake Elmo, is hosting an open house to plan for future improvements to the Highway 36 and County Highway 17 (Lake Elmo Avenue) Intersection.

Join us for the first project open house to make your voice heard. The feedback you provide will guide the project team in developing the project purpose and need which will be used to score the alternatives that are developed over the next 12 months.

In-Person Open House

Join us in-person or online to meet the design team, share comments about needs and concerns with the current intersection.

- When: Tuesday, November 9 from 4:00 p.m. - 6:00 p.m.
- Where: River Valley Church (5900 Lake Elmo Ave N, Lake Elmo, MN 55042)

[Open House #1 Invitation](#)

Online Open House Information

Visit our online open house anytime on the project website: November 9 —November 28.

There will be no formal presentation or discussion during the online engagement.

The project manager Kevin Peterson is also available to answer any questions concerning the project at 651-430-4330 or kevin.peterson@co.washington.mn.us.

More information on this project can also be found on the project website: www.co.washington.mn.us/LakeElmoAvenue.

Lake Elmo Newsletter

infrastructure (such as streets, parks and utility systems), vehicles, equipment and public buildings. The plan includes estimated cost, the need for each improvement, funding source and the financial impact that the improvement will have on the City. Terms will be staggered for the inaugural year. Opportunities to commit to 1, 2 or 3 year terms are available.

For information and application materials click [here](#).

Offer Your Input on Highway 36, Lake Elmo Avenue Improvements

Washington County is seeking public input on the Highway 36 and Lake Elmo Avenue improvement project through November 28. Information, opportunities to comment, and a questionnaire are available at the link below.

11/10/2021, 11:39 AM: Left turn lane is not long enough when people are travelling 70 mph behind you and you are coming down a hill and need to stop in time especially in winter or if there are other cars waiting to get across .

Comments

11/28/2021, 11:19 AM: I agree with this comment

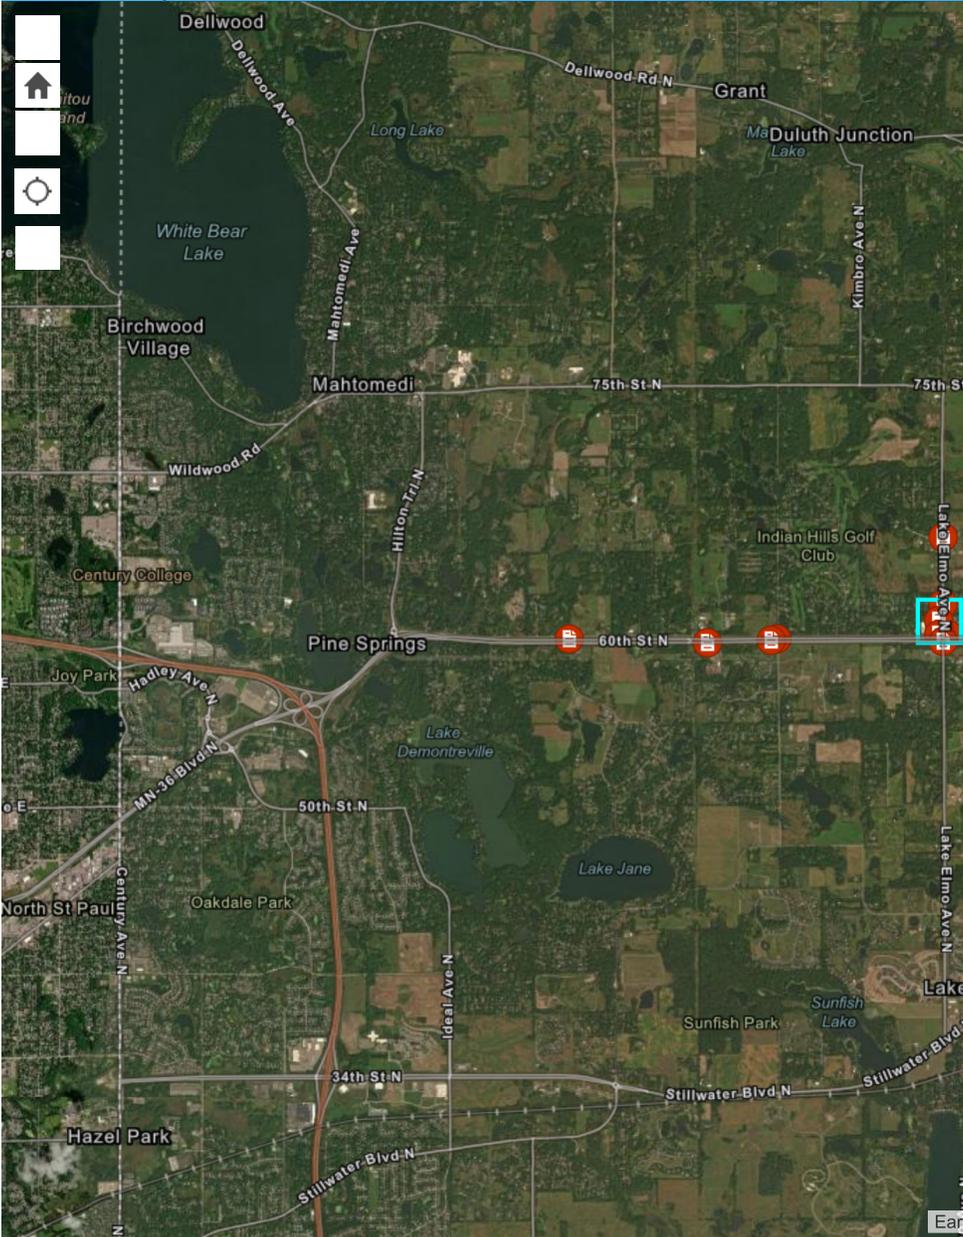

CSAH 17 & 36 Comm... 2

11/10/2021, 11:33 AM: It's dangerous heading East bound on the frontage road here. The frontage road is way to close to the intersection to go any direction. When I come North on LE Ave. and turn West on frontage I almost get rear ended or can't cross with the congestion.

11/9/2021, 8:12 PM: Turning left when going north at the 62nd St intersection is dangerous. Have been passed on the right in the shoulder often when waiting to turn left. Maybe a turn lane? Also the truck traffic from Burberls is at the same point.

11/9/2021, 5:22 PM: This area is short, and hard to get into or across when traffic is backed up, which is most of the time. Very hard to see all the places that cars can come out from when trying to go north on Lake Elmo from east on frontage road. Super hard d

Comments

11/30/2021, 5:28 AM: Hard to see in all the directions especially those trying to cross or enter 36 from LEA. I will only use if my other options not available.

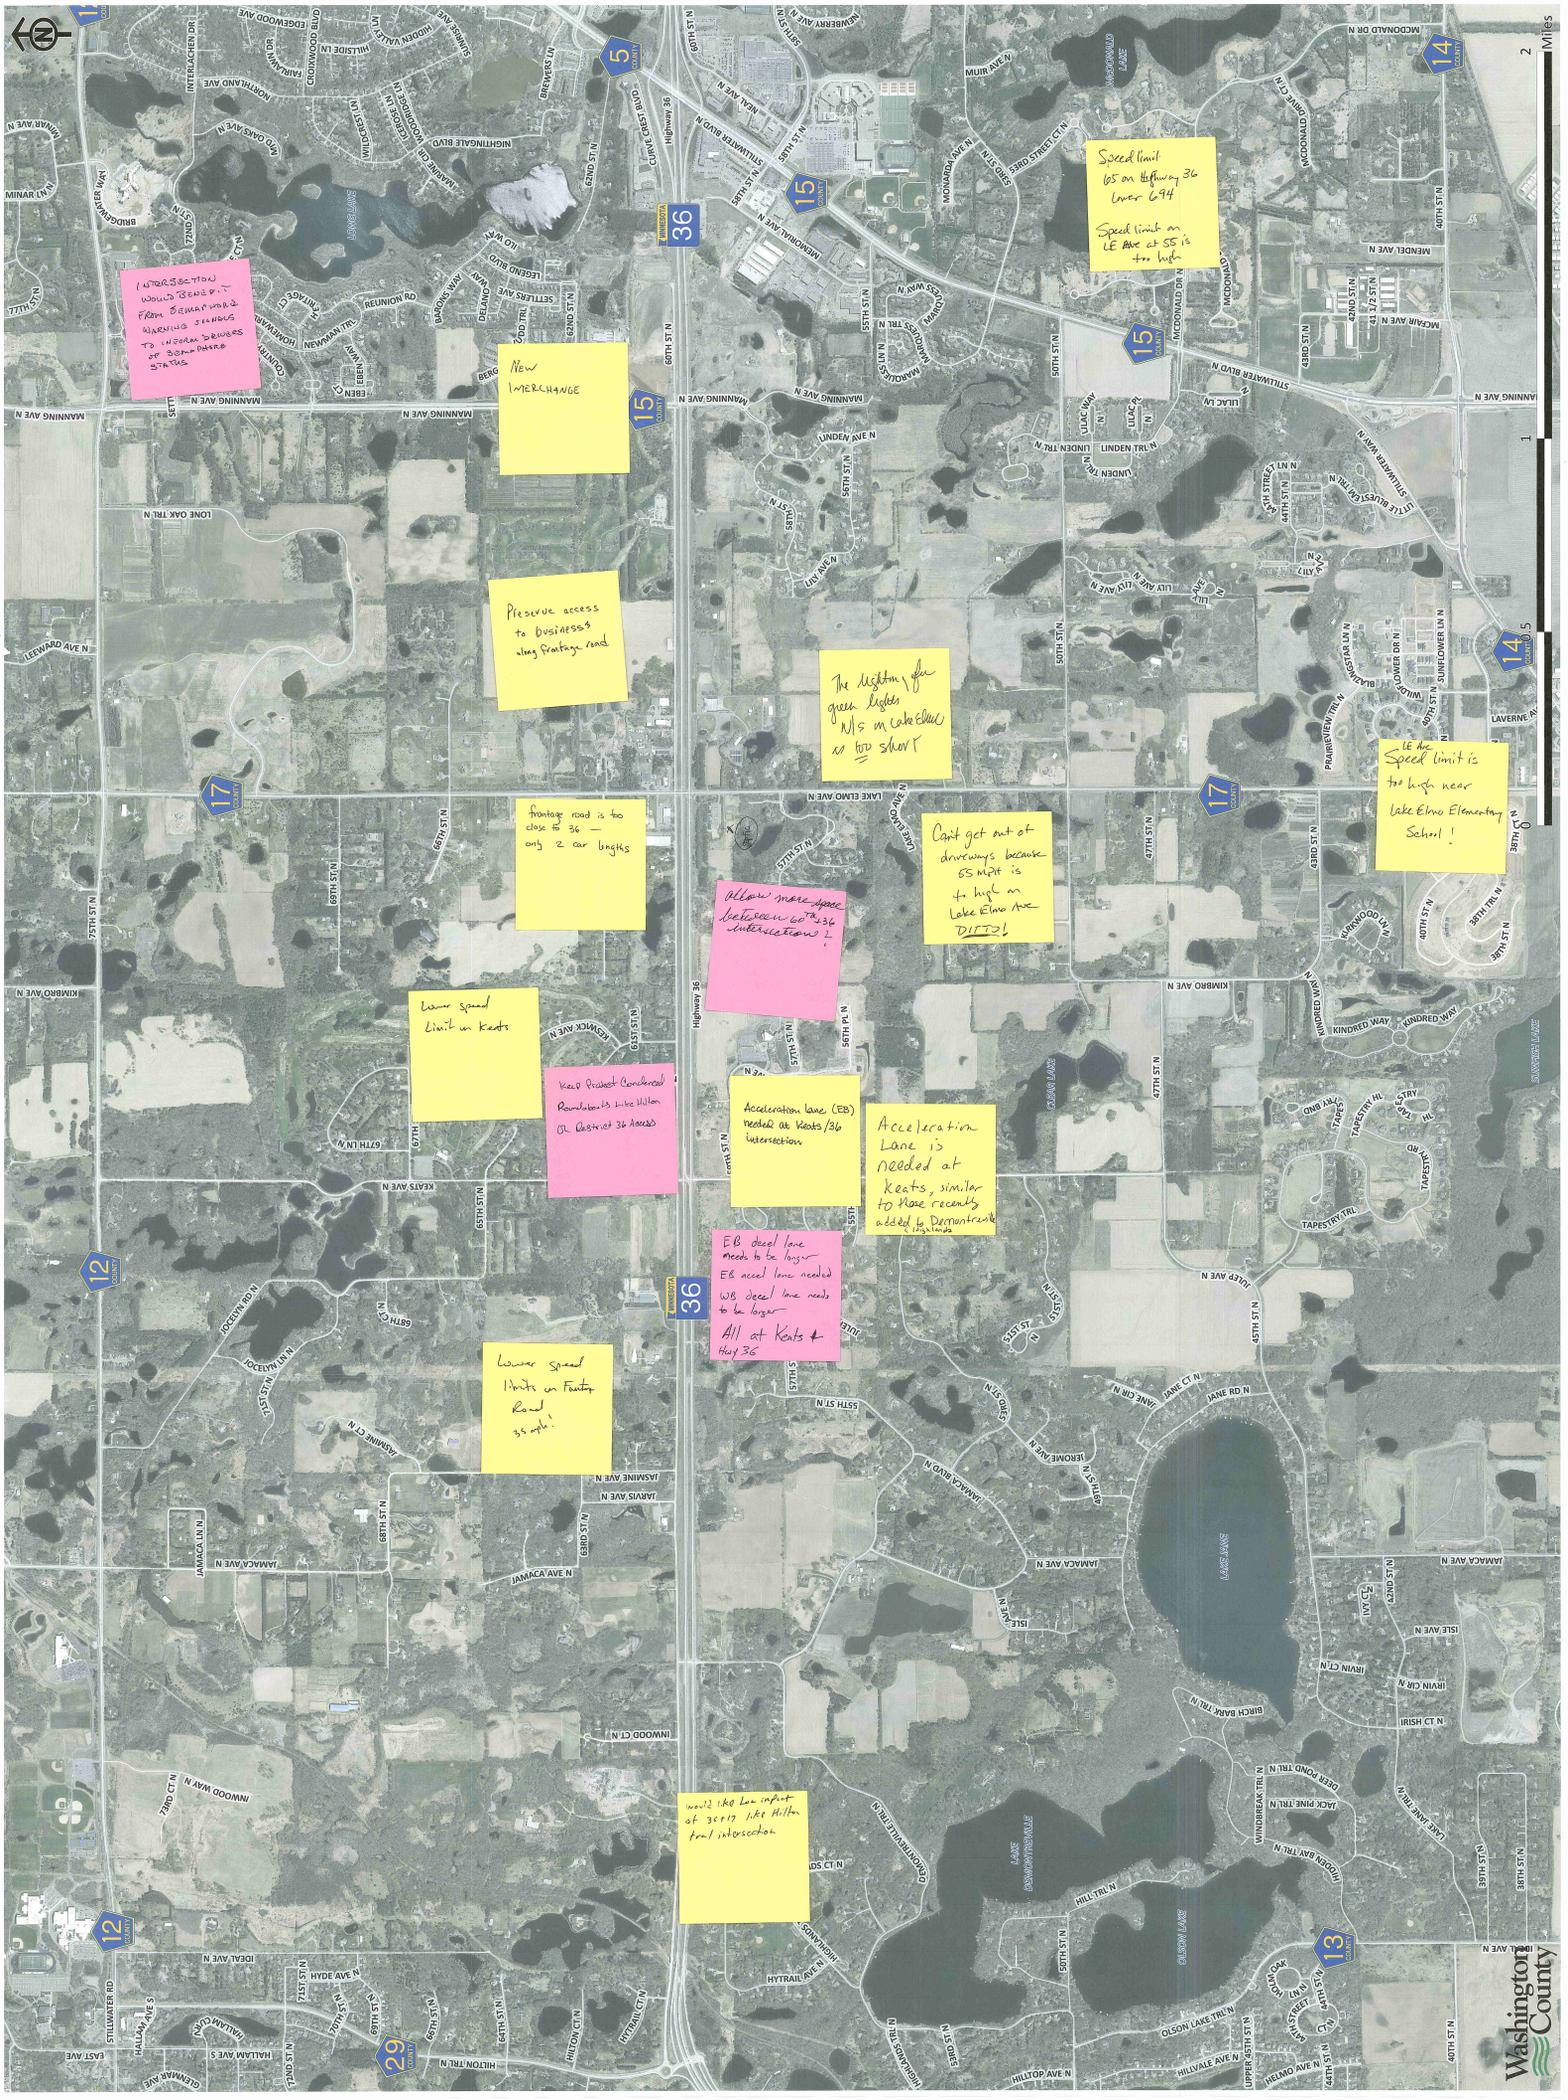

CSAH 17 & 36 Comm... 0

11/9/2021, 5:21 PM: Do NOT allow parking on this frontage road. Its unsafe for all! I cant believe its been allowed at all.

Intersection would be better if from Beaverton, warning signals to warn drivers of 30mph zone

New interchange

Speed limit 65 on Highway 36 near 694
Speed limit on LE Ave at 55 is too high

Preserve access to businesses along Prange road

The lighting for green lights N/S on Lake Elmo is too short

LE Ave speed limit is too high near Lake Elmo Elementary School!

Frontage road is too close to 36 - only 2 car lengths

Can't get out of driveway because 55 mph is too high on Lake Elmo Ave. DIED!

Allow more space between 36 intersections?

Lower speed limit on Keats

Need Protected Roundabouts like Wilson OR East of 36 Area

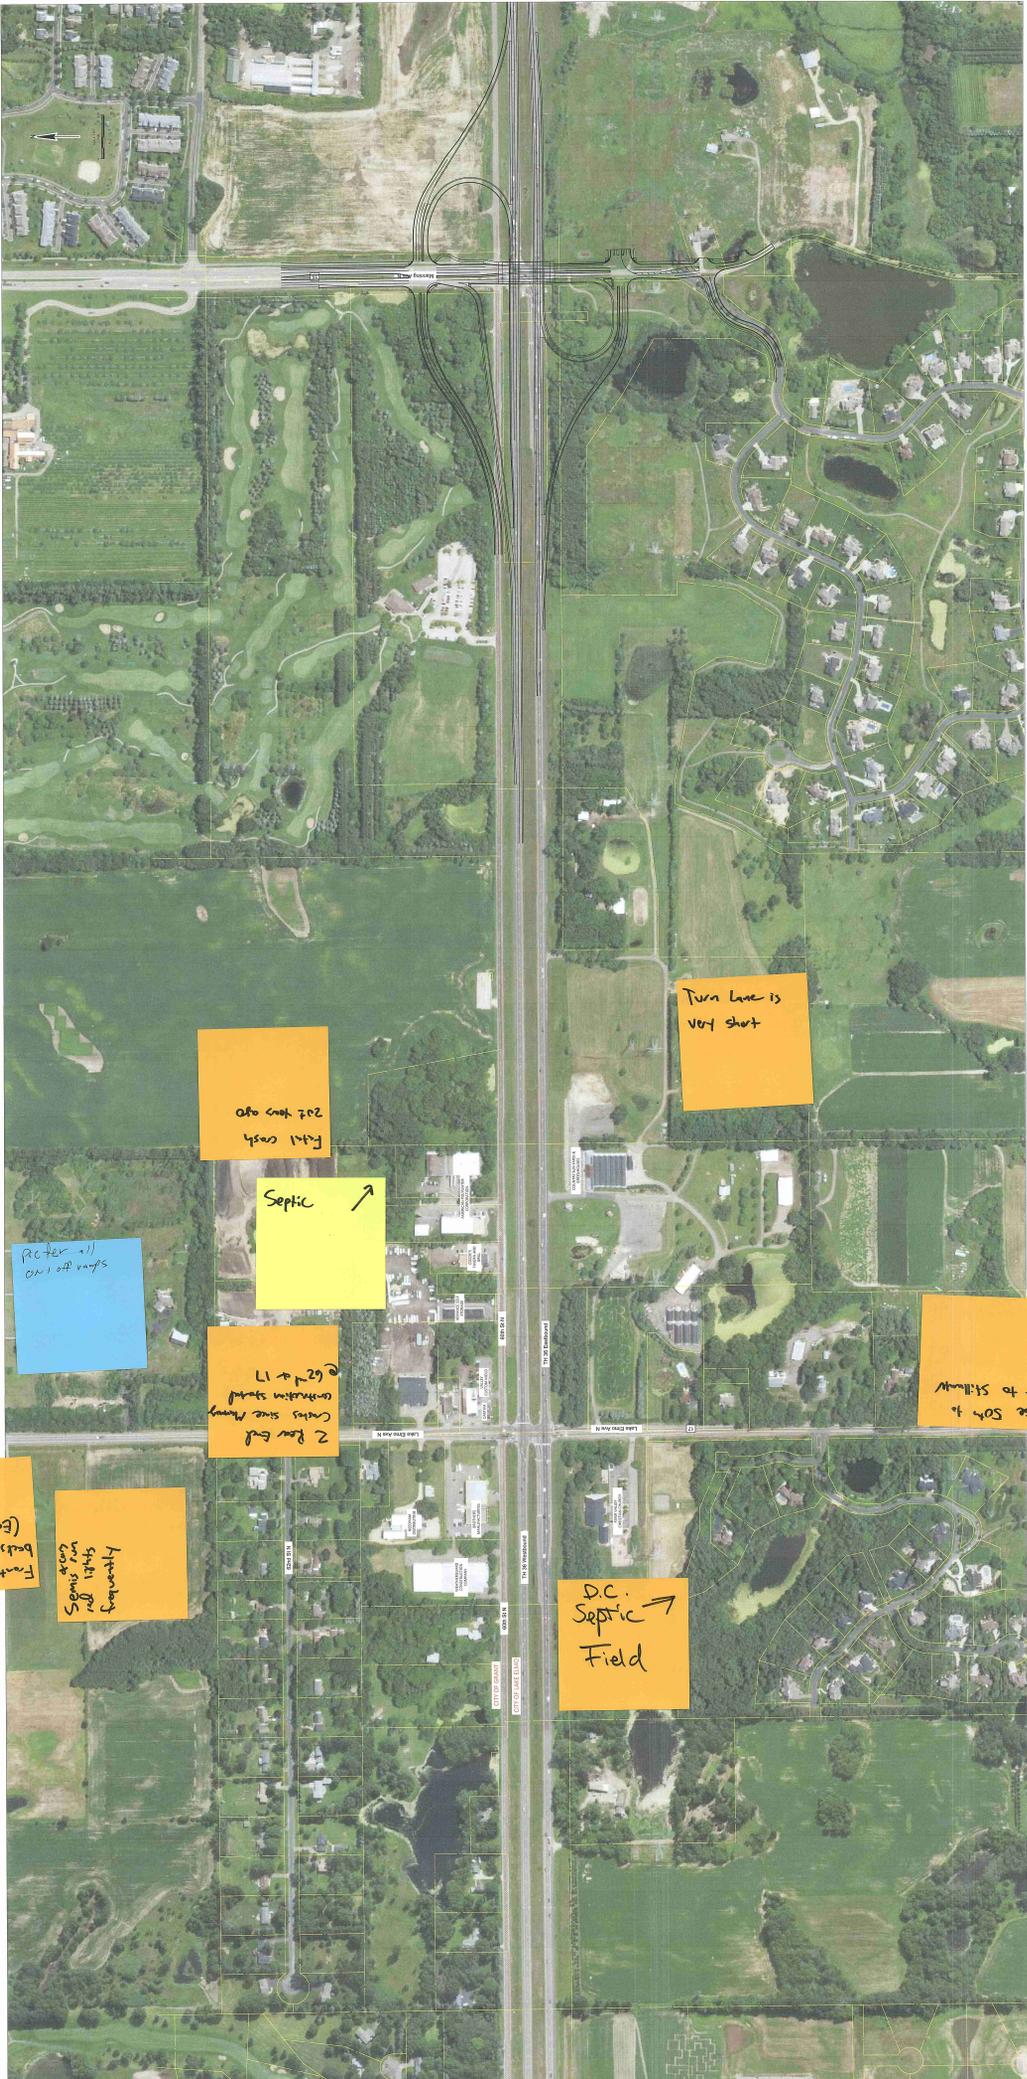

Acceleration lane (EB) needed at Keats/36 intersection

Acceleration Lane is needed at Keats, similar to those recently added by Department at 19th Ave

EB decel lane needs to be longer
EB accel lane needed
WB decel lane needs to be longer
All at Keats + Hwy 36

Lower speed limits on Prange Road 35 mph!

would like low impact at 36/17 like Milton trail intersection

Frontage road
Beds up now
(Cars + wash)

Q1 I commute using Highway 36

What role best describes your primary use of the roadways in this area? (Select all that apply)

Q2 Do you have any concerns that you'd like to see evaluated with the project?
Yes (please explain):
Backups during rush hour are an issue. Also, the proximity of the service road to 36 makes it impossible to cross Lake Elmo Avenue (or get on it to turn onto 36)..

Q3 Do you have any components or suggested improvements you'd like to see evaluated with the project?
Yes (please explain):
Roundabouts should be considered for off highway intersections

Q4 Do you have any other comments for the project team to consider?

This project can't happen soon enough!

Q5 If you wish to sign up for project updates, please provide an email address below.

Q1 I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
What role best describes your primary use of the roadways in this area? (Select all that apply)

Q2 Yes (please explain):
access from eastbound on 60th street to go to Stillwater
Do you have any concerns that you'd like to see evaluated with the project?

Q3 No
Do you have any components or suggested improvements you'd like to see evaluated with the project?

Q4
Do you have any other comments for the project team to consider?
There is a dangerous hill and intersection on Lake Elmo Road (about 6900) that perhaps needs more attention. The warning lights there currently do help, but maybe aren't the final solution. Hopefully the Manning interchange will reduce traffic on Lake Elmo Road somewhat.

Q5
If you wish to sign up for project updates, please provide an email address below.

Q1

What role best describes your primary use of the roadways in this area? (Select all that apply)

I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)

I commute using Highway 36,

I commute using Lake Elmo Avenue (County Highway 17)

Q2

Do you have any concerns that you'd like to see evaluated with the project?

Yes (please explain):

The safety of access to 36, and ease of access to the businesses near that intersection.

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

Yes (please explain):

Impact of traffic back up and traffic use of Lake Elmo Ave if an exit ramp/bridge is implemented.

Q4

Do you have any other comments for the project team to consider?

Possibly removing the access to 36 from all other points along 36 and leave only exit/on ramps at these points. The concern being if traffic is not slowed down at the light, it creates areas of danger at all other points of access that are not more controlled.

Q5

If you wish to sign up for project updates, please provide an email address below.

I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)

I commute using Highway 36,

I commute using Lake Elmo Avenue (County Highway 17)

I bike or walk in the area

Q2

Do you have any concerns that you'd like to see evaluated with the project?

Yes (please explain):

Short place to be stopped at light and if using frontage road, its a gauntlet. Also, parking at Cozzies Bar, very scary driving past there with people parked all along both sides of frontage road and darting out between cars as you drive past. That should NOT be allowed.

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

Yes (please explain):

Make area to stop at light more manageable. If trying to cross on frontage road its difficult. Make no parking on frontage road. No exceptions

Q4

Do you have any other comments for the project team to consider?

Cozzies parking, its a hazzard

Q5

If you wish to sign up for project updates, please provide an email address below.

Q1

What role best describes your primary use of the roadways in this area? (Select all that apply)

I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)

I commute using Highway 36,

I commute using Lake Elmo Avenue (County Highway 17)

Q2

Do you have any concerns that you'd like to see evaluated with the project?

Yes (please explain):

Keats Ave death trap needs to be closed off or a proper acceleration lane installed. I live off of Keats and every day there are close calls for entering 36 and also exiting on to Keats. Sundays are a disaster with the rock point traffic trying to get out on 36. Please include Keats Ave south of 36 in this study. I have seen 3 neighbors die due to hwy 36 and Lake Elmo Ave and also Keats Ave.

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

Yes (please explain):

Shut Keats Ave off and put in a frontage road. Also we need a noise barrier for the prairie hamlet housing development. We are on the south west side of 36 and Keats. The engine breaking noise and all increased vehicles have impacted noise pollution since the bridge went in. I have lived here off Keats for 12 years and it is very loud and dangerous now.

Q4

Do you have any other comments for the project team to consider?

Please install prepare to stop flashers for lake Elmo Ave for the near future when you do the 36 overlay next spring. This would get people's attention and help them comprehend they need to stop soon. This intersection and Keats Ave are both horrible with the increased bridge traffic. Thanks for looking in to this and hopefully making dramatic improvements

Q1 I commute using Highway 36,

What role best describes your primary use of the roadways in this area? (Select all that apply)

I commute using Lake Elmo Avenue (County Highway 17)

Q2 Do you have any concerns that you'd like to see evaluated with the project?
Yes (please explain):
Would LOVE to see, in the interim, warning lights on Hwy 36 before the light is set to change to Red. Way too many times have I seen people run the red light cause they didn't notice the light would change so quickly. As much as we'd like to like/expect people are watching the light, many are not or unable to judge safely.

Q3 Do you have any components or suggested improvements you'd like to see evaluated with the project?
Yes (please explain):

Q1 I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
What role best describes your primary use of the roadways in this area? (Select all that apply)

Q2 Yes (please explain):
Do you have any concerns that you'd like to see evaluated with the project? Accident risks when left turn lane traffic from EB 36 to NB 17 extends into 36 due to volume.

Q3 No
Do you have any components or suggested improvements you'd like to see evaluated with the project?

Q4
Do you have any other comments for the project team to consider?
Please implement a solution to reduce accidents occurring when long traffic lines back up at 36-17 stop lights. At the state-wide level, we need driver education on how to enter and exit traffic circles safely. Drivers are forcing their way into a circle when vehicles are already in the circle, resulting in collision and injury risks.

Q2

Do you have any concerns that you'd like to see evaluated with the project?

Yes (please explain):

That the end result won't be any better than the current situation

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

Yes (please explain):

Slow the speed of traffic down 36. Vehicles typically drive in excess of 70 mph. It's a problem.

Q4

Do you have any other comments for the project team to consider?

We need some type of barrier along 36 to prevent wildlife and lost dogs from wandering onto the highway if possible. We need long enough merge lanes in each directions to allow for getting up to speed before merging. The 94/494 interchange is an example of what not to do. It's a mess exiting east on 94.

Q1

What role best describes your primary use of the roadways in this area? (Select all that apply)

Other (please explain):

I use Highway 36 regularly, both during regular commute times and at other times for business and personal trips.

Q2

Do you have any concerns that you'd like to see evaluated with the project?

No

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

No

Q4

Do you have any other comments for the project team to consider?

I've been a driver for over 35 years and have lived in the St. Croix Valley for nearly 20 years. This is one of the most dangerous intersections I have ever encountered. I'm grateful that the county and the two municipalities are working on a solution and I hope that the project can be built as soon as possible.

Page 1

Q1

What role best describes your primary use of the roadways in this area? (Select all that apply)

I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)

Other (please explain):

For Indian Hills and surrounding developments this intersection is primary entrance to east bound Hwy 36.

Q2

Do you have any concerns that you'd like to see evaluated with the project?

Yes (please explain):

Last efforts to improve intersection failed when cities of Grant and Lake Elmo could not reach a mutual design agreement. If this happens again, I believe Washington County and MNDOT should make the design decision and get the project done.

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

Yes (please explain):

Front roads need to provide easy access to east bound Hwy 36. Current situation is horrific. Frontage are in need of upgraded design, maintenance and traffic control

Q4

Do you have any other comments for the project team to consider?

Effect of improvement on current traffic patterns. For example, most likely Keats Avenue will become an even greater alternate route for travellers to avoid this intersection. The City of Grant historically has not adequately maintained gravel/asphalt feeder roads to county and state roadways. Examples, McKusick, Kimbro, Lake Elmo (north of Hwy 12) and Keats. In addition to being feeder roads, they are essential to area public safety, emergency, school buses, delivery vehicles and others. Perhaps the county should consider converting these to county roads as they did Jamaca and others.

Perhaps the county should consider

Q1

What role best describes your primary use of the roadways in this area? (Select all that apply)

I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)

I commute using Highway 36,

I bike or walk in the area

Q2

Do you have any concerns that you'd like to see evaluated with the project?

Yes (please explain):

It is difficult and dangerous to get on Lake Elmo from the North frontage road

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

Yes (please explain):

Get rid of stoplight and have a bridge that crosses over Hwy 36. No on or off ramps please.

Q4

Do you have any other comments for the project team to consider?

The increased traffic on Hwy 36 makes us avoid going East to the Stillwater area. It has also made driving locally pretty crazy for a rural area. The noise has greatly increased so sound barriers along the frontage road would be helpful which will also help keep the deer and other wildlife from getting on Hwy 36

Q1 **I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)**
What role best describes your primary use of the roadways in this area? (Select all that apply)

Q2 **Yes (please explain):**
Do you have any concerns that you'd like to see evaluated with the project? **Before 2025 there will need to be a stop light at 50th street and Lake Elmo Ave.**

Q3 **No**
Do you have any components or suggested improvements you'd like to see evaluated with the project?

Q4
Do you have any other comments for the project team to consider?
Will Lake Elmo Ave go under 36 or over? Since on the south side you go uphill going north on Lake Elmo Ave to 36. Will there be a service street on the south connecting Lake Elmo Ave and Keats?

Q5 **Respondent skipped this question**
If you wish to sign up for project updates, please provide an email address below.

Q1 **I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)**
What role best describes your primary use of the roadways in this area? (Select all that apply)

Q2 **Yes (please explain):**
Do you have any concerns that you'd like to see evaluated with the project? **The traffic light at Lake Elmo Ave is not very visible when traveling east**

Q3 **Yes (please explain):**
Do you have any components or suggested improvements you'd like to see evaluated with the project? **At a minimum, a flashing yellow light should alert motorists that the traffic light is going to turn red. It should be in both directions.**

Q4
Do you have any other comments for the project team to consider?
This intersection will eventually need to be improved to allow traffic flow without lights - way beyond my scope!

Q5 **Respondent skipped this question**
If you wish to sign up for project updates, please provide an email address below.

Q1

What role best describes your primary use of the roadways in this area? (Select all that apply)

I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)

I commute using Highway 36,

I commute using Lake Elmo Avenue (County Highway 17)

I bike or walk in the area

Q2

Do you have any concerns that you'd like to see evaluated with the project?

Yes (please explain):

We need dedicated pedestrian and biking paths on Lake Elmo Ave. There are a lot of residents that would use it and it could link to other county paved paths. Lake Elmo Ave is hilly and should not have high speed traffic on it. Residents trying to turn onto LE Ave. are seeing increasing difficulty.

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

Yes (please explain):

Paved trails for bikers, runners, and pedestrians. Limiting access to large trucks, LE Ave doesn't really go anywhere, large trucks should take Manning.

Q4

Do you have any other comments for the project team to consider?

Respondent skipped this question

Q5

I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)

,

I work near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)

,

I commute using Highway 36

Q2

Do you have any concerns that you'd like to see evaluated with the project?

Yes (please explain):

The stoplight must be removed as it is extremely unsafe. As is the westbound turn from Highway 36 to Keats during rush hour.

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

No

Q4

Do you have any other comments for the project team to consider?

Traffic turning left from westbound 36 Onto Keats should be routed through a Lake Elmo Ave exit. That left turn should be removed.

Q5

If you wish to sign up for project updates, please provide an email address below.

Q1

What role best describes your primary use of the roadways in this area? (Select all that apply)

I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)

Q2

Do you have any concerns that you'd like to see evaluated with the project?

Yes (please explain):
NOISE- the increased hwy noise since the bridge opened is tragic for nearby residents. Anytime roads are elevated, traffic noise is amplified and migrates farther and louder. Consider the negative impact of highway noise on nearby residents

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

Yes (please explain):
Residents on the south side of 36 must not be trapped and church traffic must be considered

Q4

Do you have any other comments for the project team to consider?

Begging to avoid increasing highway noise for local residents and do not turn Keats into the only access point for motorists on the south side of hwy 36. Residents do not deserve increased traffic on our local roads to support this project.

Q5

I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)

I commute using Highway 36,

I commute using Lake Elmo Avenue (County Highway 17)

Q2

Do you have any concerns that you'd like to see evaluated with the project?

Yes (please explain):

Safety at the intersection. Too many drivers are blowing through yellow and red lights on Hwy 36

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

Yes (please explain):

Try to creatively eliminate the north frontage road connections

Q4

Do you have any other comments for the project team to consider?

Respondent skipped this question

Q1 I commute using Highway 36

What role best describes your primary use of the roadways in this area? (Select all that apply)

Q2 Yes (please explain):
very dangerous intersection
Do you have any concerns that you'd like to see evaluated with the project?

Q3 Yes (please explain):
Please eliminate the stop light. Or lower the speed limit on 36 and make the stop lights more visible.
Do you have any components or suggested improvements you'd like to see evaluated with the project?

Q4
Do you have any other comments for the project team to consider?
If you can't eliminate the stop light, add a warning light that flashes when the stop light is about to change, well in advance, so that traffic on 36 has ample time to stop safely. Add cross walk for bikes and pedestrians to cross safely.

Q5 Respondent skipped this question

Q1

What role best describes your primary use of the roadways in this area? (Select all that apply)

I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)

I commute using Highway 36

Q2

Do you have any concerns that you'd like to see evaluated with the project?

Yes (please explain):

Exit ramps to make left turns from eastbound highway 36 to Demontreville Trail, from westbound highway 36 to southbound Keats are too short for safe deceleration without impeding traffic on highway 36. The entrance ramp from northbound Keats onto eastbound highway 36 is much too short to allow for safe entry onto highway 36.

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

Yes (please explain):

Longer entrance and exits ramps are needed.

Q4

Do you have any other comments for the project team to consider?

Respondent skipped this question

Q1 I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
What role best describes your primary use of the roadways in this area? (Select all that apply)

Q2 Yes (please explain):
Speed on Lake Elmo Blvd, blind intersection at 41st, and poor marking of school zone
Do you have any concerns that you'd like to see evaluated with the project?

Q3 Yes (please explain):
Decrease speed, and add intersection notification for 41 st.
Do you have any components or suggested improvements you'd like to see evaluated with the project?

Q4
Do you have any other comments for the project team to consider?
Decrease the speed to make it safer for pedestrians that cross to walk the trails on the east side of Lake Elmo Blvd, try crossing yourself and under stand the fear when a loaded 18 wheel dump truck comes up over the hill at 41 st. As you head east to get to the trails. And then the school is 3 blocks away and the truck is going 55 mph. This is bad!!!

Q1 I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
What role best describes your primary use of the roadways in this area? (Select all that apply)

Q2 Do you have any concerns that you'd like to see evaluated with the project?
Yes (please explain):
Safety of the roadway - hwy 36 traffic will often not stop for a red light which create hug safety concerns for north and south bound travelers.

Q3 Do you have any components or suggested improvements you'd like to see evaluated with the project?
Yes (please explain):
Add an overpass

Q4 Respondent skipped this question
Do you have any other comments for the project team to consider?

Q5 If you wish to sign up for project updates, please provide an email address below.

Q1 I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
What role best describes your primary use of the roadways in this area? (Select all that apply)

Q2 Do you have any concerns that you'd like to see evaluated with the project?
Yes (please explain):
Speed on Lake Elmo Ave; residential roads North of 36 that are the east and west of Lake Elmo Ave sight/vision (especially 69th St)

Q3 Do you have any components or suggested improvements you'd like to see evaluated with the project?
Yes (please explain):
Speed on Lake Elmo Ave; Noise from the highway

Q4 Do you have any other comments for the project team to consider?
I live on 69th Street and have speed and sight/distance concerns about Lake Elmo Ave, especially if it will continue to have access to 36.

Q5 If you wish to sign up for project updates, please provide an email address below.

Q1 **I commute using Highway 36,
I bike or walk in the area**
What role best describes your primary use of the roadways in this area? (Select all that apply)

Q2 **Yes (please explain):**
Do you have any concerns that you'd like to see evaluated with the project? **I just want to reiterate the already identified issue of vehicle safety that this project plans to resolve.**

Q3 **Yes (please explain):**
Do you have any components or suggested improvements you'd like to see evaluated with the project? **Pedestrian and bike crossing and the potential to extend a trail to connect to Sunfish Lake Park, Lake Elmo Park Reserve, and beyond. I I understand correctly, there will be a ped/bike crossing at Manning Avenue and a future trail extension to these parks (I live on Manning Ave). Could the trails at Manning be connected to trails at the Lake Elmo intersection a well?**

Q4
Do you have any other comments for the project team to consider?
This is a much needed improvement for safety. I know of the person who lost his life at this intersection, and I am thankful that action is being taken to prevent this from happening again. Thank you to the project team, your efforts are much appreciated.

Q1

What role best describes your primary use of the roadways in this area? (Select all that apply)

I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)

Q2

Do you have any concerns that you'd like to see evaluated with the project?

Yes (please explain):
you have GOT to do something about 69th street and Lake Elmo. it needs a stop light. someone is going to be killed in an accident. Nathan Arnold completely disregarded concerns. And the county looked like it didn't care during that tv news story in May

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

Yes (please explain):
the intersection of 69th street and Lake Elmo Avenue need to be addressed. it has been a death trap for 20+years and only gotten worse. It needs a stoplight.

Q4

Do you have any other comments for the project team to consider?

Yes. You need to do something about the intersection of lake Elmo and 69th street. Someone is going to die. the signs to slow down do nothing.

Q5

If you wish to sign up for project updates, please provide an email address below.

Respondent skipped this question

I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)

I commute using Highway 36,

I commute using Lake Elmo Avenue (County Highway 17)

Q2

Do you have any concerns that you'd like to see evaluated with the project?

Yes (please explain):

Obviously the Frontage road access to 36, living off that frontage road is using the intersection from it, is almost impossible.

Q3

Do you have any components or suggested improvements you'd like to see evaluated with the project?

Yes (please explain):

The Keats Avenue intersection either needs to be removed or improved to allow traffic to get onto 36. Options for residents are less than optimal

Q4

Do you have any other comments for the project team to consider?

Respondent skipped this question

Q1 **I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)**
What role best describes your primary use of the roadways in this area? (Select all that apply)

Q2 **Yes (please explain):**
Lake Elmo Ave speed and traffic reduction
Do you have any concerns that you'd like to see evaluated with the project?

Q3 **No**
Do you have any components or suggested improvements you'd like to see evaluated with the project?

Q4
Do you have any other comments for the project team to consider?
Even before the Manning Ave detour, speeds on Lake Elmo Ave, North of 36 were excessive. 65MPH+ is not uncommon, and it can be very hazardous for those turning into, or out of adjacent streets. Particularly true near the hill crests with limited visibility. Would like to see a reduction in speed limit. Any measures to decrease speed and traffic count are important. Would love to see an overpass without Hwy 36 access.

Q1 I commute using Highway 36

What role best describes your primary use of the roadways in this area? (Select all that apply)

Q2 Do you have any concerns that you'd like to see evaluated with the project?
Yes (please explain):
This intersection has become more dangerous due to the congestion from the Stillwater Bridge opening. Sometimes it's hard to see the traffic control lights depending on the time of year and time of day you are traveling on 36. The sun shines right on the light and makes it impossible to see sometimes.

Q3 Do you have any components or suggested improvements you'd like to see evaluated with the project?
No

Q4 Do you have any other comments for the project team to consider?
Respondent skipped this question

- No
- Yes (please explain)

3. Do you have any components or suggested improvements you'd like to see evaluated with the project?

- No
- Yes (please explain)

slow the speed down

4. Do you have any other comments for the project team to consider?

- No
- Yes (please explain)

5. If you wish to sign up for project updates, please provide an email address below.

Email Address:

Highway 36 & County Highway 17 (Lake Elmo Avenue) Intersection Improvement Project Questionnaire

1. What role best describes your primary use of the roadways in this area? (Select all that apply)

- I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I work near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I commute using Highway 36
- I commute using Lake Elmo Avenue (County Highway 17)
- I bike or walk in the area
- Other (please explain)

2. Do you have any concerns that you'd like to see evaluated with the project?

- No
- Yes (please explain)

would like sound barriers installed by Discorn Crossing and any other residential areas affected by the project
would like speed and safety along LEAve also addressed

3. Do you have any components or suggested improvements you'd like to see evaluated with the project?

- No
- Yes (please explain)

would like minimal impact to forests + trees along the SW corner of the intersection, and SE as well.

4. Do you have any other comments for the project team to consider?

- No
- Yes (please explain)

Consider all off the residential, impact first over business impact.

5. If you wish to sign up for project updates, please provide an email address below.

Email Address:

Highway 36 & County Highway 17 (Lake Elmo Avenue) Intersection Improvement Project Questionnaire

1. What role best describes your primary use of the roadways in this area? (Select all that apply)

- I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I work near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I commute using Highway 36
- I commute using Lake Elmo Avenue (County Highway 17)
- I bike or walk in the area
- Other (please explain)

2. Do you have any concerns that you'd like to see evaluated with the project?

- No
- Yes (please explain)

The speed limit at 65 is high. Everyone is driving 70. When you need to merge from left hand lane driving westbound, the traffic does not let you in.

3. Do you have any components or suggested improvements you'd like to see evaluated with the project?

- No
- Yes (please explain)

— people are using the merge lanes as passing lanes. this is probably legal but dangerous. could the lanes be marked better?

4. Do you have any other comments for the project team to consider?

- No
- Yes (please explain)

It is difficult to find breaks in traffic to be able to cross 36. Reducing the number of lights will do the problem.

5. If you wish to sign up for project updates, please provide an email address below.

Email Address:

Highway 36 & County Highway 17 (Lake Elmo Avenue) Intersection Improvement Project Questionnaire

1. What role best describes your primary use of the roadways in this area? (Select all that apply)

- I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I work near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I commute using Highway 36
- I commute using Lake Elmo Avenue (County Highway 17)
- I bike or walk in the area
- Other (please explain)

I commute from South across the intersection. The difficult access from the N. frontage road is a constant problem.

2. Do you have any concerns that you'd like to see evaluated with the project?

- No
- Yes (please explain)

We would like to preserve American Polywater - itself + the traffic flow - during and after the project. (Local business + semi-truck traffic flow)

3. Do you have any components or suggested improvements you'd like to see evaluated with the project?

- No
- Yes (please explain)

This intersection definitely needs safety improvements

4. Do you have any other comments for the project team to consider?

- No
- Yes (please explain)

Even a warning signal on the hill for East Bound traffic would help.

5. If you wish to sign up for project updates, please provide an email address below.

Email Address:

Highway 36 & County Highway 17 (Lake Elmo Avenue) Intersection Improvement Project Questionnaire

1. What role best describes your primary use of the roadways in this area? (Select all that apply)

- I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I work near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I commute using Highway 36
- I commute using Lake Elmo Avenue (County Highway 17)
- I bike or walk in the area
- Other (please explain)

2. Do you have any concerns that you'd like to see evaluated with the project?

- No
- Yes (please explain)

Safety & access Streamline 36 to avoid stop lights outside of city.

3. Do you have any components or suggested improvements you'd like to see evaluated with the project?

- No
- Yes (please explain)

Develop ramp or round a bout to reduce accidents ; increase traffic flow

4. Do you have any other comments for the project team to consider?

- No
- Yes (please explain)

5. If you wish to sign up for project updates, please provide an email address below.

- I commute using Lake Elmo Avenue (County Highway 17)
- I bike or walk in the area
- Other (please explain)

2. Do you have any concerns that you'd like to see evaluated with the project?

- No
- Yes (please explain)

noise mitigation, safety and maintaining the privacy and natural integrity of the residents near the intersection.

3. Do you have any components or suggested improvements you'd like to see evaluated with the project?

- No
- Yes (please explain)

An underpass design would seem to be less intrusive to the surrounding properties. Not a full diamond design pedestrian connections north and south on Lake Elmo Ave connecting to

other trail systems

4. Do you have any other comments for the project team to consider?

- No
- Yes (please explain)

our neighborhood Discover Crossing, has a ^{septic} ~~septic~~ field near the proposal interchange, we would need hook up to city sewer if that gets taken out

5. If you wish to sign up for project updates, please provide an email address below.

Highway 36 & County Highway 17 (Lake Elmo Avenue) Intersection Improvement Project Questionnaire

1. What role best describes your primary use of the roadways in this area? (Select all that apply)

- I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I work near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I commute using Highway 36
- I commute using Lake Elmo Avenue (County Highway 17)
- I bike or walk in the area
- Other (please explain)

We live @ 5424 Lake Elmo Ave N. Neighbors who have small children have to cross 17 with their kids to catch the bus going north towards 36. It's a problem when the bus stops on the opposite side of the road + children have to cross Hwy 17 especially @ 8 Am!

2. Do you have any concerns that you'd like to see evaluated with the project?

- No
- Yes (please explain)

The manager at [redacted] walks to work + home from work every day. Lives @ [redacted] our neighbour - he crosses 36 every day + we're afraid he's going to get hit!

3. Do you have any components or suggested improvements you'd like to see evaluated with the project?

- No
- Yes (please explain)

No access to 36 from Lake Elmo Ave N. (between 36 + Stillwater Blvd)

but everyone drives 65 MPH! We cannot safely pull out of our driveway to get on 17 (north or south) when they drive 65 MPH!

4. Do you have any other comments for the project team to consider?

- No
- Yes (please explain)

Change speed limit on 17! or put speed trackers that the Sheriff can monitor! No more 55 mph - it doesn't work.

5. If you wish to sign up for project updates, please provide an email address below.

Email Address: [redacted]

Highway 36 & County Highway 17 (Lake Elmo Avenue) Intersection Improvement Project Questionnaire

1. What role best describes your primary use of the roadways in this area? (Select all that apply)

- I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I work near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I commute using Highway 36
- I commute using Lake Elmo Avenue (County Highway 17)
- I bike or walk in the area
- Other (please explain)

I am operations manager for [redacted] located [redacted] corner of intersection.

2. Do you have any concerns that you'd like to see evaluated with the project?

- No
- Yes (please explain)

- Truck access to North east frontage road.
- impact on local businesses during construction and after
- would like to know about plans for equipping local properties

3. Do you have any components or suggested improvements you'd like to see evaluated with the project?

- No
- Yes (please explain)

- Roundabouts and pedestrian sidewalks would be beneficial
- Sem! truck access to frontage road.
- Parking on frontage roads

4. Do you have any other comments for the project team to consider?

- No
- Yes (please explain)

if using turn signals make them low enough for trucks to cross traffic

5. If you wish to sign up for project updates, please provide an email address below.

road to not have it blocked all the time.

Highway 36 & County Highway 17 (Lake Elmo Avenue) Intersection Improvement Project Questionnaire

1. What role best describes your primary use of the roadways in this area? (Select all that apply)

- I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I work near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I commute using Highway 36
- I commute using Lake Elmo Avenue (County Highway 17)
- I bike or walk in the area
- Other (please explain)

2. Do you have any concerns that you'd like to see evaluated with the project?

- No
- Yes (please explain)

Speed limit on 17 near 69th St N. Disable traffic warning for traffic Northbound on 17 @ 69th St N.
Improve sight lines for 69th St N

3. Do you have any components or suggested improvements you'd like to see evaluated with the project?

- No
- Yes (please explain)

4. Do you have any other comments for the project team to consider?

- No
- Yes (please explain)

We would prefer no access to Hwy 36 from 17. Go to Manning for access. This will encourage use of Manning, protect local businesses

5. If you wish to sign up for project updates, please provide an email address below.

Email Address:

Highway 36 & County Highway 17 (Lake Elmo Avenue) Intersection Improvement Project Questionnaire

1. What role best describes your primary use of the roadways in this area? (Select all that apply)

- I work near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I commute using Highway 36
- I commute using Lake Elmo Avenue (County Highway 17)
- I bike or walk in the area
- Other (please explain)

2. Do you have any concerns that you'd like to see evaluated with the project?

- No
- Yes (please explain)

Please consider extending the project limits to include Keats. It suffers from having no

entry lane to Hwy 36 - w/ increased traffic.

3. Do you have any components or suggested improvements you'd like to see evaluated with the project?

- No
- Yes (please explain)

Possibly a frontage road between Keats and Lake Elmo Ave, if an acceleration

lane is not possible.

4. Do you have any other comments for the project team to consider?

- No
- Yes (please explain)

Please consider the issue at Keats. It is very dangerous, has a good amount of

traffic; is a serious accident waiting to happen.

5. If you wish to sign up for project updates, please provide an email address below.

Email Address:

Highway 36 & County Highway 17 (Lake Elmo Avenue) Intersection Improvement Project Questionnaire

1. What role best describes your primary use of the roadways in this area? (Select all that apply)

- I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I work near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I commute using Highway 36
- I commute using Lake Elmo Avenue (County Highway 17)
- I bike or walk in the area
- Other (please explain)

2. Do you have any concerns that you'd like to see evaluated with the project?

- No
- Yes (please explain)

SAFETY — Reduce speed on Hwy. 36 and Lake Elmo Ave

3. Do you have any components or suggested improvements you'd like to see evaluated with the project?

- No
- Yes (please explain)

Reduce speed — Hwy 36 is
Not a freeway

4. Do you have any other comments for the project team to consider?

- No
- Yes (please explain)

Try not to impact Business on the frontage road

5. If you wish to sign up for project updates, please provide an email address below.

Highway 36 & County Highway 17 (Lake Elmo Avenue) Intersection Improvement Project Questionnaire

1. What role best describes your primary use of the roadways in this area? (Select all that apply)

- I live near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I work near the intersection of Highway 36 and Lake Elmo Avenue (County Highway 17)
- I commute using Highway 36
- I commute using Lake Elmo Avenue (County Highway 17)
- I bike or walk in the area
- Other (please explain)

2. Do you have any concerns that you'd like to see evaluated with the project?

- No
- Yes (please explain)

2.5 miles long

Lake Elmo Ave is a narrow small road that is handling much more traffic than it was designed to do. To expand this is irresponsible and highly impacts our quality of living and housing values.

3. Do you have any components or suggested improvements you'd like to see evaluated with the project?

- No
- Yes (please explain)

① Dead end LE Ave @ 36 - use HWY 5 - which is already equipped to handle traffic. ② Reduce speed limit to 45 mph & ban semi's etc. ③ create a right turn only @ 36 via frontage road to connect w/ Manning.

(in & out)

4. Do you have any other comments for the project team to consider?

- No
- Yes (please explain)

LE Ave MUST be included in this study and financing to address the large impact these changes made be addressed.

5. If you wish to sign up for project updates, please provide an email address below.

Highway 36 & County Highway 17 (Lake Elmo Avenue) Intersection Improvement Project Optional Questionnaire

By completing this questionnaire, you are helping Washington County to comply with Title VI and related statutes, which require the collection of statistical data to aid in assessing outreach efforts among those who are affected or interested in this project.

Title VI of the Civil Rights Act of 1964 requires Washington County to provide opportunity for everyone to comment on transportation programs and activities that may affect their community. Title VI specifically states that "No person in the United States shall on the grounds of race, color, or national origin be excluded from participation in, be denied the benefit of, or otherwise be subjected to discrimination under any program, service, or activity receiving federal financial assistance."

Coordinators from Washington County will handle all information confidentially. Please call Washington County's Title VI Compliance Officer at (651) 430-4317, if you have any questions or concerns.

Highway 36 & County Highway 17 (Lake Elmo Avenue) Intersection Improvement Project Optional Questionnaire

By completing this questionnaire, you are helping Washington County to comply with Title VI and related statutes, which require the collection of statistical data to aid in assessing outreach efforts among those who are affected or interested in this project.

Title VI of the Civil Rights Act of 1964 requires Washington County to provide opportunity for everyone to comment on transportation programs and activities that may affect their community. Title VI specifically states that "No person in the United States shall on the grounds of race, color, or national origin be excluded from participation in, be denied the benefit of, or otherwise be subjected to discrimination under any program, service, or activity receiving federal financial assistance."

Coordinators from Washington County will handle all information confidentially. Please call Washington County's Title VI Compliance Officer at (651) 430-4317, if you have any questions or concerns.

1. OPTIONAL, what is your gender?

Female

Male

Has the project design been finalized and have the cities of Grant and Lake Elmo agreed to participate? Since the St.Croix Crossing has been completed and the Manning project now partially open, truck and auto traffic volumes and speed has increased. This trend will continue given the land development in the area (both side of the river). Because of these factors, entering Hwy 36 from Keats and other locations west along the frontage road has been increasingly difficult at best. Are there any plans to alleviate this situation?

Comments It's amazing there are still stop lights on a major highway like MN-36 which has a speed limit higher than many freeways within the Twin Cities metro. Take the light out now (obviously close access) and figure out access plans later. We can't wait until 2025 to eliminate this hazard. This intersection is a death trap waiting to happen.

I believe the remaining at grade intersections must also be corrected/removed along 36 from lake elmo ave to Hilton at the same time as addressing lake elmo ave. It is very unsafe.

I am concerned about this project for the following reasons:

1. I don't fully understand why MNDot and Wash county believe spending over \$35 million dollars is necessary for this portion of Hwy 36. MN Hwy 65 has had very similar intersections and carries more traffic, yet, Hwy 65 is not undergoing such radical change.
2. Traffic projections at Lake Elmo Ave vs. Manning Ave are less than 1/3 of Manning Ave.
3. Manning Ave design is an eyesore! The design did not consider the impact on the rural nature of the area. Hwy 36 should have been elevated slightly (10 feet?) with Manning Ave routed under Hwy 36. This would have minimized the amount of exposed concrete and possibly would have required less tonnage of fill to be brought in.
4. There are no warning lights for traffic approaching the signals. The warning lights don't have to be timed to the lights turning red.
5. More importantly, MNDot should seriously consider lowering the Hwy 36 speed limit to 55 mph AND enforcing it. I travel this section of highway regularly and traffic normally moves at or above 70 mph. Everyone knows this including law enforcement. Wouldn't it be far more economically effective to try this option first before spending such large quantities of taxpayers money? I think so. I hope that Washington County and MNDot are not blind to trying this first!!!
6. What's wrong with two lighted intersections east of White Bear Avenue? I fail to see why removing these two sections of lights is so darned important to MNDot and the County...

lights is so darned important to MNDot and the County... especially given what would have to be spent and the significant negative impact to local businesses.

MNDot is not treating its highway equally (see previous comment about Hwy 65) I'm sure there are other State highways that can be used for comparison purposes.

I have commuted on westbound Highway 36 from Stillwater for 18 years. Signals were added at the intersection of Highway 36 and Lake Elmo Ave many years ago. In my experience, these signals are very difficult to see and I have witnessed many others who either don't see the signals or are not paying attention and have had to brake hard to avoid a rear-end collision. In addition, the high speed limit on Highway 36 (65 MPH at Lake Elmo Ave) and signalized intersections are a dangerous combination. I live on Manning Avenue and have witnessed numerous vehicles going westbound on Highway 36 that run the red lights going over 60MPH (which is the speed limit at that intersection). This was the cause of a fatality at this intersection a few years ago. My family could have also shared the same fate if it wasn't for my husband paying attention to cross traffic before making a left turn onto eastbound Highway 36 from Manning Ave. After that incident I called MNDOT to ask them to consider reducing the speed limit at the location of these signalized intersections and/or increasing the 'all red' phase of the signals, but to no avail. Thank you to the County and MNDOT for finally removing the signalized intersection at Manning Avenue to improve safety. I ask that the design team also consider the full removal of the signalized intersection at Hwy 36 and Lake Elmo Avenue and replace with a roundabout, bridge, or other means to reduce traffic conflict. If signals are still required due to lack of Right-of-way, grade issues, etc, please consider reducing the speed limit, making the signals more visible, increasing the timing of the 'all red' phase, and

adding signs on Hwy 36 prior to the intersection that flash when the lights are about to turn red (similar to the signs previously at Hilton Trail on Hwy 36). However, the complete removal of the signals at Lake Elmo Avenue is a much preferred option. Thank you for the opportunity to provide comments.

Right now, can you install a flasher light that warns cars of an upcoming red light. That would cut down on the rear-end collisions east bound. The red lights blend in with the tail lights going east. A flasher 1/4 mile before the intersection would be a great interim solution in my opinion. to be clear, a flasher that goes on only when the light is about to turn red or has already turned red. Many thanks from a 30 year resident of Grant / Stillwater
