What We Heard Common themes from the public:

New trail on north side of road is highly desired. Trails provide valuable recreational uses and access to parks.

Intersection improvements needed at multiple locations including:

Eagle Creek Lane
St. John's Drive
Settlers Ridge Parkway
Manning Avenue (State Hwy 95)

Concerned about impacts to properties like tree clearing, right-of-way, noise, and privacy.

Improved pedestrian crossings desired at:

Jewel Drive (provide improved connections to the existing pedestrian tunnel)

Area between Eagle Creek Lane and Bridgewater Parkway and St. John's Drive

Concerned about vehicle speeds/speeding
