News Release

A news release was sent out.

Date: May 17, 2024
Contact: Tina Elam, Communications Manager
Phone: 651-430-6004 (office), 651-592-5989 (after hours)
E-mail: tina.elam@co.washington.mn.us

FOR IMMEDIATE RELEASE

Public invited to open house May 28 on 58th Street extension and County Highway 15 connection project

The public is invited to an open house from 4 to 6 p.m. Tuesday, May 28, regarding the 58th St. extension and County Highway 15 (Manning Ave.) connection project. The open house will take place in the Stillwater Area High School cafeteria at 5701 Stillwater Blvd. N. in Stillwater.

Washington County is leading a roadway extension project through the cities of Stillwater, Stillwater Township, and Oak Park Heights. This project aims to complete a long-sought connection of County Highway 15 north of Highway 36 with County Highway 15 south of Trunk Highway 36 via an independent alignment while bringing non-motorized connections, and access to developable land to the area.

At the open house, attendees can meet the design team, review the proposed design alternative, and learn about the schedule and next steps for the project.

For those unable to attend the in-person open house, materials from the open house will be posted on the project website following the in-person event. The public can visit a virtual open house anytime on the project website from May 28 to June 11. There will be no formal presentation at the in-person or virtual open houses.

Updates will be posted on the project website at www.co.washington.mn.us/58thStreetExtension. For more information, contact Project Manager Ryan Hoefs at 651-430-4314 or ryan.hoefs@co.washington.mn.us.

 - *some comments included likes on other comments
 - 4. I'm concerned about increased traffic, and noise, on 58th St east of Stillwater Blvd. Rather than take 36 to get to businesses around Walmart, people will take 58th, increasing traffic flow on an already busy road with dangerous access points.
 - 5. The intersection of 53rd Street and Stillwater Blvd needs a control - either stoplight, roundabout, or other intersection control. This is an existing issue and could be dealt with alongside the construction work for the 58th st extension project
 - 6. County should reconsider the old study route and extend directly south in the future.
 - 7. During school season, at the beginning of the day, eastbound 58th (west of Stillwater Blvd) could back up past Memorial creating access issues to businesses along Memorial if school traffic chooses 58th over the current route.
 - 8. Care should be taken to design for cyclists/other pedestrian users. Bicycles (and popular e-bikes) are a valid way of transportation for many, especially for shorter trips. Especially as this will be around many residential areas, and a school.
 - 10. I am concerned about the increase in traffic in this area making it more dangerous for kids playing, and disrupting the nearby neighborhoods. It is an area with beautiful natural landscapes and adding buildings and infrastructure will disrupt this.
 - 11. A bike/pedestrian trail would benefit the community and add safety but a highway connector is unnecessary, expensive, destructive, fails to address the traffic caused by students driving to school instead of taking the bus, and "saves" only one minute.

**58th Street Extension/County Highway 15
Connection Project
Questionnaire**

May 2024

1. How would you use the new County Highway 15 connection? *Select all that apply*

Commute to/from work

Commute to/from school

Shopping/Dining

Utilize non-motorized connection to local and regional trails

Other—Please Explain _____

2. Do you have any other comments or questions for the project team?

Looks like it will improve traffic and allow better access without using Hwy 36 (which backs up frequently)

Improves pedestrian/biking access to school.

58th Street Extension/County Highway 15 Connection Project

Questionnaire: Optional Demographics

May 2024

By completing this questionnaire, you are helping Washington County to comply with Title VI and related statutes, which require the collection of statistical data to aid in the assessing outreach efforts among those who are affected or interested in this project.

Title VI of the Civil Rights Act of 1964 requires Washington County to provide opportunity for everyone to comment on transportation programs and activities that may affect their community. Title VI specifically states that "No person in the United States shall on the grounds of race, color, or national origin be excluded from participation in, be denied the benefit of, or otherwise be subjected to discrimination under any program, service, or activity receiving federal financial assistance."

Coordinators from Washington County will handle all information confidentially. Please call Washington County's Title VI Compliance Offer at (651) 430-4317, if you have any questions or concerns.

Q2
Do you have any other questions or comments for the Project Management Team?

Would the county and the school district consider alternate entrances to the school? The entrance immediately to the east of the Manning intersection has limited options to fix the challenges but vacating that entrance in favor of a different entrance either further east (alongside the school, lose some of the side parking) or further into the parking lot might be better. There are some creative solutions at other MN high schools. What about a light controlled roundabout with the lights blinking yellow most of the time but during the highest traffic times they are controlled? At one time the idea was to have the main thoroughfare be Manning but in the plans I see here the 58th St extension favors Manning/Stillwater Blvd as the main thoroughfare and anyone traveling south on Manning from north of 36 has to make a right turn (no different than if they jumped onto 36 except they have a slower traffic pattern). Students looking to get to school will likely still use 36 as it will likely be faster and we have only benefited those who want to avoid 36 or don't feel comfortable on it. This could be designed where a right lane on 58th turns right and merges into Manning heading south so N/S traffic on Manning using this as a true N/S route doesn't have to stop. Another way to help traffic on the school entrance to the east of Manning would be make the west entrance which is currently a one way in/one way out interchange into a roundabout, similar to what it is around East Ridge High School (on Bailey, not the back frontage road).

Q1 Other (please specify):
 How would you use the new County Highway 15 connection? Select all that apply. It is not necessary but I live right by where it is being proposed

Q2
 Do you have any other questions or comments for the Project Management Team?
 I would like to encourage the team to prioritize nature land over more housing and buildings. Keep nature space open and protect current neighborhoods from more traffic, noise and additional buildings.

Q1 **Utilize non-motorized connection to local and regional trails**
How would you use the new County Highway 15 connection? Select all that apply.

Q2
Do you have any other questions or comments for the Project Management Team?

I sent a detailed comment with previous survey/ public comment. I am worried about heavy traffic northbound on Stillwater blvd turning left on 55th street to use Memorial to 58th to avoid left turn light. Heavy traffic here will functionally traffic lock Carriage station neighborhood and create unsafe environment for our kids walking or biking to school with lack of completed sidewalk. Please, come to Carriage Station and try to make a left turn out of the neighborhood....and now jam up another neighborhood exit.

How would you use the new County Highway 15 connection? Select all that apply.

Q2
Do you have any other questions or comments for the Project Management Team?

As a high school mountain bike team coach, this could considerably improve the time and safety of our crossing Nannie's g to join local trails to Pine Point Park and Sunfish Lake, Reid and Lake Elmo Regional parks. Please give higher priority (speedier response) to pedestrians and cyclists pressing the lighted crossing buttons!

Q1 Other (please specify):
How would you use the new County Highway 15 connection? Select all that apply. I would not use. There are already safe easy routes.

Q2
Do you have any other questions or comments for the Project Management Team?
I would like to see the ROI on the project. It seems unnecessary and wasteful. Wasteful of money and scarce natural land. So much earth would need to get moved to do this for no reason.
