What We Heard Common themes from the public:

Concern about
pedestrian safety
at crossings

The new north side trail will be great!
But some things to think about include:

A **traffic signal at Eagle Creek Lane** is needed, but worried about adding more signals to the corridor

Closing the gap
between Jewel Drive
and the underpass

Privacy and proximity
to residences

Support for **improvements at Manning Avenue**, including realignment of Valley Creek Road

Clearing of
vegetation
and **noise**
